

# SMART AI CAMERA

In a world where connectivity meets intelligence, our Smart AI Camera stands at the forefront of innovation. Effortlessly bridging the gap between cutting-edge technology and user-friendly design, this sleek device offers more than just surveillance—it empowers you with a sense of control and peace of mind. With an emphasis on seamless integration and high-performance capabilities, our Smart AI Camera is not just a gadget; it's a gateway to a smarter, more secure lifestyle. Elevate your monitoring experience to new heights.

## Specifications

**Voice  
Control**

**Phone  
Control**

**Home  
Security**

**Video  
Recording**

Unleash the power of our Smart AI Camera, a vigilant guardian equipped with an array of intelligent features. From facial recognition for personalized security to motion detection that triggers instant alerts, this device transcends conventional monitoring. Enjoy the flexibility of two-way audio communication, ensuring you're always connected. With its robust night vision capability, our Smart AI Camera remains vigilant around the clock. Seamless cloud storage and compatibility with virtual assistants enhance accessibility. Elevate your security with a camera that not only observes but understands, adapts, and empowers your sense of control.

# PRODUCT SPECIFICATIONS

Protocol	Wi-Fi
Product Size	145*85*95 mm
Rated Power	110v- 220v
Lens Type	Zoom Lens
Video Compression	H.265
Frequency	2.4G & 5G
Storage	MAX 128G
PIR Detection	Not supported
Day & Night Switch	IR- Cut Filter with Audio- Switching
Motion Detection	Supported
Human Body Detection	Not supported
Certification	CE, RoHS
Net Weight	0.6g
Power Supply Type	12V

# PRODUCT SPECIFICATIONS

IP Rating	IP66
Illumination Distance	50M
Network Interface	Wi-Fi & RJ- 45
Pan & Tilt Angle	Pan: 355, Tilt: 90
Max Resolution	5MP
Audio Exception	Not Supported
Product Category	Indoor Pan/ Tilt Camera
Cloud Storage	Yes

The above specifications culminate in a user experience that transcends mere surveillance, offering unparalleled peace of mind and security. By seamlessly integrating advanced features like facial recognition, motion detection, and two-way audio communication, our Smart AI Camera not only observes but understands and adapts to your surroundings. Enjoy the convenience of remote monitoring, reinforced by robust night vision capabilities for around-the-clock vigilance. With cloud storage and compatibility with virtual assistants, this camera is not just a device; it's a gateway to a smarter, safer lifestyle. Elevate your security with a cutting-edge solution that goes beyond the ordinary, providing an intelligent and empowering surveillance experience.

# USER MANUAL

**Important Note:** We recommend thoroughly reading and understanding the contents of this user manual before using your Smart AI Camera. Keep this manual for future reference to maximize the potential of your device.

## Getting Started:

Before using the device, please ensure the following:

### 1. Wi-Fi Network Compatibility:

- Connect your smartphone to a 2.4GHz or 5GHz Wi-Fi network as the Smart AI Camera operates on both frequencies.

### 2. Correct Wi-Fi Password:

- During the setup process, input the correct Wi-Fi password to establish a secure connection.

### 3. Smartphone Compatibility:

- Ensure your smartphone meets the following requirements:
  - Android version 4.4 or higher
  - iOS version 8.0 or higher

### 4. Router Configuration:

- Configure your Wi-Fi router for seamless connectivity.

### 5. Network Capacity:

- Ensure your Wi-Fi router has available capacity for the new device.

Adhering to these guidelines ensures a smooth setup and operation of your Smart AI Camera within your Wi-Fi network.

## Setting Up Your Device:

### 1. Download the Next Controls Mobile Application:

- Utilize your smartphone to download the "Next Controls" mobile application from your app store.

### 2. Account Creation:

- Create an account using your mobile number and the authentication code provided.

### 3. Initial Device Connection:

- Enable Bluetooth on your mobile device. The app will prompt you to enable Bluetooth and choose the device to add. Enter your Wi-Fi network name and password; it will connect automatically.
- Alternatively, select "Smart AI Camera" from the device list. Enter the Wi-Fi password and select "blink quickly." Ensure the LED indicator is blinking rapidly; if not, hold the reset button for about 5 seconds until it blinks rapidly.
- Connect your mobile device to the device's hotspot, "SmartAI-XXXX," and return to the app interface. It will connect to your router automatically, completing the configuration.
- After connecting, access the camera settings within the app for additional customization.

#### Notes:

- Ensure the Smart AI Camera is within the Wi-Fi range for optimal performance.

### Device Functions:

#### 1. Live Monitoring:

- Access real-time video feed from the Smart AI Camera through the mobile app.

#### 2. Recording Capability:

- Record and save video footage directly through the app for later review.

#### 3. Cloud Storage:

- Utilize cloud storage for convenient access to recorded footage from anywhere.

#### 4. Motion Detection:

- Enable motion detection to receive instant alerts on your smartphone.

#### 5. Two-Way Audio:

- Communicate through the Smart AI Camera using the built-in two-way audio feature.

## 6. Night Vision:

- Ensure clear visibility in low-light conditions with the Smart AI Camera's night vision capability.

## 7. Smart Integration:

- Seamlessly integrate the Smart AI Camera with virtual assistants for voice control.

## 8. Weather Resistance:

- The Smart AI Camera is designed with an IP66 rating, ensuring durability in various weather conditions.

## Advanced Features:

### 1. Customizable Alerts:

- Tailor motion detection alerts to specific zones for personalized security.

### 2. Facial Recognition:

- Enable facial recognition for enhanced security and personalized notifications.

### 3. High-Resolution Video:

- Capture detailed video footage with a maximum resolution of 5MP.

### 4. Network Connectivity:

- Connect the Smart AI Camera to both Wi-Fi and RJ-45 for flexible network options.

This comprehensive guide will assist you in setting up your Smart AI Camera and utilizing its features effectively. For any additional assistance, refer back to this user manual or contact our support team. Enjoy the smart and secure experience with your Smart AI Camera!
